

Remember the safety rules!

Stay in your assigned spot

Stay in your vehicle as much as possible

Speaker notification may apply, pay attention at all times

Minimum 5 meter safety distance with semi lift

Never go under hanging load!

Stay away from the railway tracks and don't touch the railway wagons

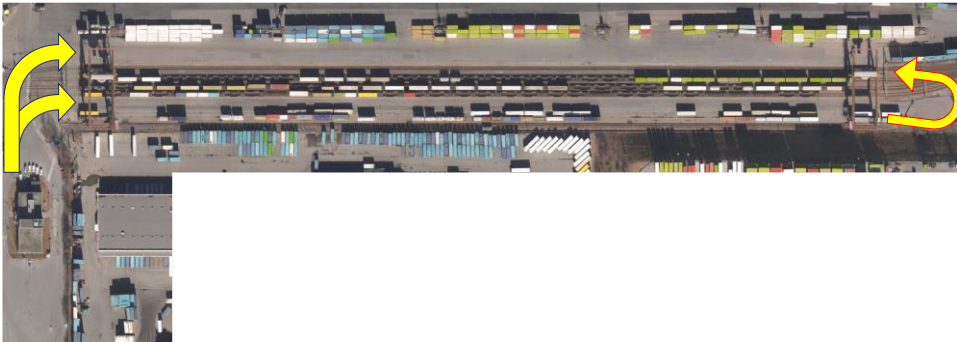

New cranes at Alnabru

Safety rules for drivers

1 Drive to your assigned loading lane and number

You are delivering directly on the wagon or in the depot

2 Semi-trailer is not directly delivered to the crane.

Semi-trailer shall be detached and left at the designated area

Remember the 5 meter safety distance!

3 Container gets lifted directly from the crane.

Wait at your designated area for lifting operation. Stay inside your driver cabin

4 Picking up cargo, same procedure applies.

Stay still when the crane is hoisting or lowering the load. When the crane is not moving and the load is in the correct height, you may **carefully** reverse up to align with the unit. When the crane is not moving, **you have the responsibility.**
